 *Education* 

**Bachelor of Education** – St. Thomas University (June 2013)  
Major in Secondary Science and French as a Second Language

**Bachelor of Science** – Mount Allison University (May 2012)  
First Class Honours in Chemistry with a Minor in French  
and a Certificate of Bilingualism (reading, writing, and speaking)

 *Teaching Experience* 

**Grade 8 F.I.L.A. and P.I.F. – George Street Middle School** (March 2014-present)

At the present time, I am teaching Grade 8 French Immersion Language Arts and Post Intensive French at George Street Middle School. I began teaching at George Street quite recently (March 17<sup>th</sup>, 2014), and am really enjoying my time there so far. I look forward to gaining additional experience in teaching French as a Second Language over the coming months.

**Grade 7/8 FI Science and Social Studies - Devon Middle School** (Sept. 2013-March 2014)

I began working fulltime as a Grade 7 and 8 French Immersion Science and Social Studies teacher at Devon Middle School (Fredericton, NB) in September of 2013 and continued there until the end of my contract in March of 2014. My responsibilities at Devon Middle included planning and delivering lessons and assessments, tracking student progress, attending regular team, staff, and parent meetings, working as part of a professional learning community, and attending professional development seminars. Alongside my teaching responsibilities, I was also involved in the supervision of regular school dances. My time at Devon Middle School was a very valuable and enjoyable learning experience that allowed me to step outside of my comfort zone and to gain knowledge and skills that are sure to improve my teaching practice. Of particular note are the new learning opportunities that Devon Middle has provided to me, including both teaching a grade 7/8 split class and teaching Social Studies. I look forward to applying what I have learned at Devon Middle in my future teaching endeavours.

**Internship II – Sussex Middle School** (March – May 2013)

My second teaching internship took place at Sussex Middle School (Sussex, NB), where I taught grade 7 science, health, and English Language Arts for a period of eight weeks. During this time, I took on full teaching responsibilities including planning and delivering lessons and assessments, tracking student progress, attending regular team and staff meetings, and attending various professional development seminars. I was also involved in the daily Breakfast club,

assisting with supervision, and attended monthly dances as a chaperone. Since arrangements for my internship to be done in French Immersion fell through, I also made weekly visits to grade 8 French Immersion science and language arts classes. To gain additional experience in French, I spent the final week of my internship observing, assisting and leading brief activities in French Immersion and Post Intensive French classes from the grade 6-8 level.

**Internship I - Sussex Regional High School**

(Nov.-Dec. 2012)

My first teaching internship took place at Sussex Regional High School (Sussex, NB), where I taught grade 11 chemistry and math (Foundations 11) for a period of eight weeks. During this time, I was responsible for planning and delivering lessons and assessments, marking student work, and keeping accurate records of attendance, marks, etc. I also attended regular department and staff meetings, engaged in professional development activities, and helped facilitate Grad Class fundraisers, including the annual prom fashion show and winter formal. My time at SRHS was a truly valuable learning experience where I was able to further develop my passion for teaching and share my love of math and science with others. In this short eight week period, I learned more about teaching than I could have ever imagined.

 *Teaching Related Experience* 

**Science Education Research Assistant**

(Summer 2013)
